THE RIVAL RAILWAYS

The Winning Tribune publishes an Ottawa despatch, the purport of which is that arrangements have been made for the amalgamation of the Canadian Northern and Grand Trunk Pacific companies. While this is something that has been talked of ever since the Grand Trunk Pacific project was first mentioned and has always been amongst the possibilities, it is not any the more desirable from the standpoint of the West. There is room enough for three railroad corporations in western Canada, and these will give more and better competition than two. It may be said that competition does not compete, and possibly if it does not to the extent that might be wished, but as long as the earnings of the separate companies go into separate treasures there must be a business rivalry, which cannot be otherwise than for the good of the public. If anyone doubts this let him look over the province of Ontario. At every point at which the Canadian Pacific and Grand Trunk compete trade and manufactures flourish; and at every point where only one of these companies controls the transportation, even though it has half a dozen lines, there trade and manufactures languish. There is no doubt that a strong company is needed to give any effective competition with the G. P. R. and the Grand Trunk Pacific railway is as ought to be, strong enough for that. To have the Canadian Northern as a third and separate railway enterprise cannot be else than good. Particularly if it is considered that of the three companies the Canadian Northern is the only one that is truly and locally Canadian, and therefore looking at all matters from a Canadian standpoint. There are advantages in this which the province of Manitoba is reaping to-day, and which the Saskatchewan valley will reap if the Canadian Northern continues as an independent company.

The Grand Trunk railway and C. P. R. are great institutions, but they are only Canadian to a limited degree. The profits of their earnings go chiefly to other countries; the last word in the direction of every move comes from England and they give the preference to United States business over Canada. Both companies sidetrack Canadian business as of secondary importance, and do nothing to develop local traffic. Whatever else the Canadian Northern is, or has hitherto been, it is essentially a developer of local traffic. It has recognized from the start that the West was a good enough field to be served, and worked for profit. As the result of C. N. R. enterprise valuable sections of Manitoba and Ontario have been developed which otherwise, as far as can be seen in the light of experience, would have still lain waste. The Canadian Northern people are anything but philanthropists; they are probably as little considerate of the interests of the public as opposed to theirs as either the C. P. R. or Grand Trunk. But they have seen that there was money for them in a careful and determined effort at developing the natural resources of Canada without regard to any other trade. If the Grand Trunk and C. P. R. companies could be persuaded to look at things Canadian as the Canadian Northern people have done, either one would be a much more desirable company. So far they have not shown any indication of a change of heart; and until they do the strongest possible reason exists for upholding the Canadian Northern to a reasonable extent and in every reasonable way.

THE GREAT WHEAT BELT
(Continued.)

Farming Settlements. For a distance of twenty miles in all directions from Edmonton the homestead land has been taken and the C. P. R. lands purchased. All of this land is not actually occupied, and of what is occupied only a part is cultivated, but occupation and cultivation are increasing every year, and within this radius there are now all the advantages of an advanced civilization—roads, schools, churches, post offices, mills, telegraph or telephone service and every convenience pertaining to a well settled community in eastern Canada or the States.

West of Edmonton is Stony Plain settlement, with two post offices, Spruce Grove and Stony Plain, and a semi-weekly mail service. The area, population and advancement of the district may be judged by the organized school districts which it comprises. These are, Huron, Lacerte, Spruce Grove, Glory Hills, Stony Plain Centre, Stony Plain, Rosenthal, Warden and Elgin. The population is largely German-Austrian, but there are besides a large number of English-speaking Canadians and Americans.

Around and beyond St. Albert lies a large area of a well-settled country which includes the school districts of St. Leon, St. Albert, Bellerive, Cunningham, Toronto, Boulais, Rosedale, Glenary, Granger, Camilla, Morinville, Long Spruce, Egg Lake and Independence. Two telephone lines branch from St. Albert, one north to Morinville and the other northwest to Riviere Qui Barre. These lines are connected with Edmonton from St. Albert. There is a semi-weekly mail service from Edmonton to St. Albert, and a weekly service from St. Albert to Morinville, Egg Lake, Leduc, Riviere Qui Barre and Villeneuve. The majority of the people of these settlements are French-Canadians, but there are a large number of English-speaking Canadians, Americans, Germans and Belgians.

Directly north of Edmonton are the Belmont, Horse Hills, Surgeon and North Surgeon settlements, comprising the school districts of Belmont, Turnip Lake, Poplar Lake, Horse Hills, Surgeon, Sunnyside, New Lannon, Bon Accord, and Excelsior. The population is almost entirely English-speaking Canadians. The post offices are: Namee, Duagh, New Lannon and Bon Accord.

Further to the north and east are the lower Surgeon settlements with the school districts of Lamoreaux and Craelot. The Lamoreux post office has a semi-weekly mail service. The settlers in this district are mostly French-Canadians but there is a mixture of other nationalities.

Directly southwest of Strathcona and south of the Saskatchewan river are the school districts of Rabbit Hill, White Mud and Spruce Date. Directly south and southeast of Strathcona are the school districts of Oliver, Mill Creek, Sandy Lake, Wimbleton, Chelchester, Ootekwan, Foothills, Beaumont and Plains. There is a post office at Elbowoods siding, and another at Beaumont. A large proportion of the people in these districts are English-speaking Canadians but there are also two settlements of Germans and one settlement of French-Canadians.

Northeast from Strathcona on the south side of the Saskatchewan, following the course of the river, are the school districts of East Edmonton, Salisbury, Hillside, Agricola, Baker and Partridge Hill. These settlements are chiefly occupied by English-speaking Canadians and are very fully developed. There are post offices at Clover Bar, East Clover Bar, and Agricola, served by a semi-weekly mail.

Further northeast and south of the Saskatchewan are the school districts of Saskatchewan, Fort Saskatchewan, Barrie, Pleasant, View, Josephburg, Deer Creek, Good Hope and Bruderheim. These settlements are also chiefly occupied by English-speaking Canadians except Josephburg and Bruderheim which are German. There are two post offices in these settlements, Beaver Hills and Bruderheim.

Still further east are the school districts of Beaver Hills, Bloomfield, Creekford, Lime Stone Lake, Wm. W. Whiford, Menawan, and Victoria. There are post offices at Star, Wm. W. Whiford and Pakan, or Victoria. The settlements at Beaver Creek are English-speaking Canadian. Beyond that are the largest Galician settlements in the Northwest, extending easterly and northerly beyond Victoria on the north side of the Saskatchewan. Whiford and Victoria were originally half-breed settlements, but the Galicians now largely outnumber the half-breeds.

Southward from Beaver Creek school district or Star post office lie the large and numerous Beaver lake and Vermilion river districts and settlements. In these are the school districts of Ross Creek, Logan, Tofield, Northern Beaver lake West, and Vegreville. The post offices are: Ross Creek, Logan, Tofield, Northern Beaver lake, and Vegreville. This is the area of country which is now attracting the greatest share of the attention of intending settlers. Beaver lake is 40 miles due east of Edmonton and the Vermilion 20 miles further east. Settlement in this district has now ex-

tended for about 80 miles due east of Edmonton. In the Vermilion district there are now some 17 or 18 townships in which the railway land, that is to say the odd numbered sections in each township, have been purchased by intending settlers. This section of country depends for development upon the construction of the C. N. R., the surveyed line of which passes through it a short distance north of Vegreville post office.

Coming back to the railway line there are west of Leduc the following school districts: Michuan, Centre, Kain, Humble, Willow Creek, Conjuring Creek, Witton Park, Rose Hill, Dahlgreen. There are two post offices, Calmar and Conjuring Creek, served by a semi-weekly mail from Leduc. The settlers in this locality are almost entirely English speaking from the United States. There is also a considerable Scandinavian settlement.

East of Leduc are the school districts of Saron, Fredericksham, Sunny Vale, Park Dale, and Willowridge. A considerable portion of these areas are occupied by Germans and the remainder by English speaking Canadians. For a township on each side of the railway both north and south of Leduc the railway land has been purchased, as well as the homestead land taken. Settlement is pushing westward from Leduc following the south bank of the Saskatchewan in what is said to be a particularly fine country.

Eastward from Wetaskiwin and Ponoka for a distance of from forty to sixty miles along the Battle river and for about forty miles from north to south, the odd numbered sections have almost entirely passed out of the hands of the railway into those of private individuals. This is the best indication that can be given of the great rush of settlement into that district within the past three years. In this district are the post offices of Bittern Lake, Duhamel, Ferry Point, Angus Ridge, Lewisville and Asker. There are also a number of organized school districts.

FIRE BRIGADE MEETING

The adjourned meeting of the Edmonton fire brigade was held in the council chamber last night, March 17th at 8 p.m. Some sixteen members were present. Chief Launder occupied the chair with secretary-treasurer Beauchene in his usual position. Three new members, Chas. Lawton, Homer Lyons and Carl Wendig were elected as members of the fire brigade. The next and only other item of business taken up was the appointment of an assistant chief, owing to the resignation of Geo. Parfitt, the unanimous choice of the meeting cast on Mr. W. J. Johnston and he was accordingly declared elected. The meeting was adjourned to meet on the 1st Thursday of next month.

SPRUCE GROVE

A very successful entertainment was held at Spruce Grove on Friday evening, March 13th. The large crowd who were present thoroughly enjoyed themselves. Clarke's orchestra, Edmonton, gave their services gratis and their efforts were highly pleasing. Walter Clarke's comic songs caught the popular fancy. The programme was long and varied and the parts were all excellently taken. Miss Livingstone's Scotch reading was very amusing. It recounted the humorous proceedings of Sandy McLaughlin in getting a wife. It is said that several of the Stony Plain bachelors are going to take the hint and profit by Sandy's experience. Refreshments were served by the ladies and at the close of the entertainment a hearty vote of thanks was tendered Mr. Clarke and his orchestra for their kindness in assisting in the programme. The proceeds, and they were as satisfactory as the programme, will be given for the benefit of the Spruce Grove Sabbath school.

BEAVER HILLS

March 14. A concert and social under the auspices of the Ladies' Aid was held in the church, March 14th. There was quite a large attendance and the evening was passed very pleasantly.
